

Deck Marker Light

Installation Instructions

Battery Installation

- Remove mounting plate by sliding down and lifting off keyhole posts
- Remove battery cover by pressing up on tab and lifting out
- Insert 3 AA alkaline batteries (not included).
- **Note:** Be sure batteries are orientated properly. Markings for + / - are engraved in the battery compartment.

* Typical battery life of 1 year running
12 hours a night on alkaline batteries

Mounting Deck Marker Light

- Install mounting plate in desired location using screws or double-sided tape (included).
- **Note:** For double-sided tape, surface must be clean and free of dirt or residue that may prevent adhesion.
- Install front cover by lining up keyholes and sliding unit down to align with back plate.
